

## **Yachts of Seabourn Signs Fleetwide Agreement for Onboard Suite of Software Products"**

Miami, FL – March 16th, 2009 – [Onboard](#) announced today that it has signed a new fleetwide contract with the [Yachts of Seabourn](#) for its [IssuTrax™ AVO](#) and [CyberCafe@Sea™ Internet Café Systems](#). This new contract adds to an already existing engagement with The Yachts of Seabourn that includes Onboard's [CurrencyXchange™](#) System.

"Onboard is the clear leader in web-based software development for the cruise industry." said, David Lehman, IT Fleet Manager for the Yachts of Seabourn. "The IssuTrax™ AVO system provides a framework for Seabourn to provide the highest level of service within the industry when addressing guest related matters. With Onboard's CyberCafe@Sea™ wired and wireless Internet café system we can deliver a highly flexible and branded solution to our guests. The adopted non revenue shared business model, considerably reduces our costs and increases our revenue stream. We are thrilled to be continuing our partnership with Onboard."

"We are delighted to be expanding our relationship with The Yachts of Seabourn. This contract is evidence of our leadership in the AVO / Facilities Management and Internet Cafe market space." said Onboard co-founder and Managing Partner Jimmy Lopez. "Onboard's experience and proven ability to deliver results that meet our clients' software needs are the foundation of this new agreement."

The IssuTrax™ AVO System automates the manual and paper processes that have become commonplace in much of the cruise industry for AVO facilities management. The IssuTrax™ AVO System can be used to manage AVOs, Guest Complaints, Incidents, Facilities Maintenance and more. The web based interface and graphical dashboard can be accessed from any PC on the ship or in the head office. The IssuTrax™ AVO System also supports the use of Mobile devices and can be integrated into the ship's PBX system.

The Onboard CyberCafe@Sea™ Internet Café System has a NO REVENUE SHARE business model which means the customer keeps all the revenue generated by the system. The CyberCafe@Sea™ System is fully customizable and can incorporate the customer's look and feel and branding elements. The system can also work with any Satellite Provider and PMS system and has a variety of billing options and bandwidth control functions.
